

Déploiement Windows 10

Ajout des images Windows

Téléchargez l'image Windows 10 sur le site de Microsoft

ASTUCE

Utiliser le mode développeur du navigateur web Firefox ou Chrome.

Simuler l'affichage d'une tablette ou d'un ordiphone pour forcer la page de téléchargement direct d'ISO

Décompresser ou monter l'image Windows 10

Aller dans le répertoire de déploiement puis faire un clic droit sur "Operating Systems" puis cliquer sur "Import Operating System"

Dans l'assistant d'ajout d'OS sélectionner "Full set of source files"

OS Type	Choose the type of operating system to add.
Source	<input checked="" type="radio"/> Full set of source files The operating system being added consists of source files from a Windows DVD, CD, or equivalent.
Image	<input type="radio"/> Custom image file Add a captured image (WIM file) that you wish to deploy.
Setup	<input type="radio"/> Windows Deployment Services images Add the images available on a specific Windows Deployment Services server.
WDS Server	
Destination	
Summary	
Progress	
Confirmation	

Sélectionner la **racine** du lecteur DVD virtuel puis laisser l'assistant ajouter les images.

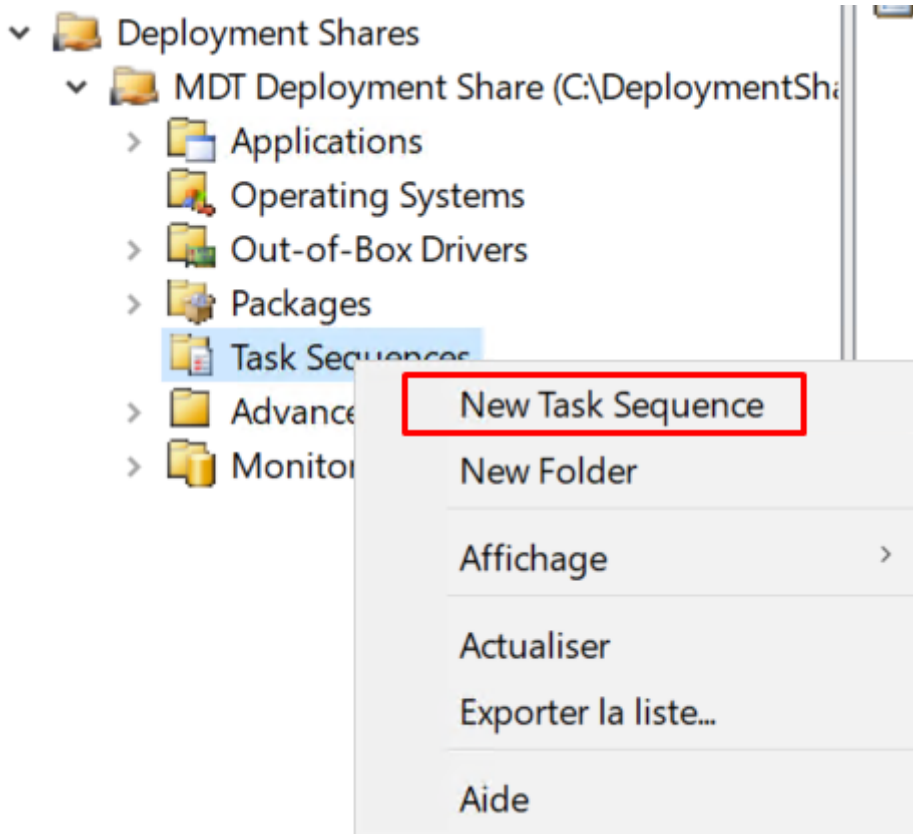

ici j'ai laissé que la version pro et éducation

Une liste d'image de Windows 10 apparaît, Supprimer ceux qui vous paraissent superflus

Création d'une séquence de tâches

Faire un clic droit sur "Task Sequences"

Donner une description à la séquence de tâches

- ID de séquence de tâche
- Nom de la séquence de tâche
- Commentaire pour la séquence de tâches

A screenshot of the 'General Settings' tab in the MDT Task Sequence Designer. The left sidebar shows a list of settings: 'General Settings' (selected), 'Select Template', 'Select OS', 'Specify Product Key', 'OS Settings', 'Admin Password', 'Summary', 'Progress', and 'Confirmation'. The main area contains the following fields:

- Task sequence ID:** A text box containing 'W10-1909-GLD'.
- Task sequence name:** A text box containing 'Win10_1909-GOLD-Generic'.
- Task sequence comments:** A large text area containing the following text:
Image de Windows 10 1909 Générique :
-Windows 10 1909 Pro
- MAJ Février 2020
- Office 2019 ProPlus

Sélectionner l'image Windows 10

The following operating system images are available to be deployed with this task sequence. Select the one to use.

- 
- A tree view showing a folder icon labeled 'Operating Systems'. To its right, two files are listed: 'Windows 10 Education in Windows 10 1909 install.wim' and 'Windows 10 Pro in Windows 10 1909 install.wim'.
- Operating Systems
 - Windows 10 Education in Windows 10 1909 install.wim
 - Windows 10 Pro in Windows 10 1909 install.wim

Spécifier ou non une clé de produit

Ne pas spécifier de clé pour les activations numérique

☒ Do not specify a product key at this time.

A product key is not required when deploying Windows 7, Windows Server 2008 R2, or later OS versions, or if the product key will be specified at deploy time using the wizard or a rule.

☐ Specify a multiple activation key (MAK key) for activating this operating system.

In order to activate, each computer deployed using this MAK key will need to contact the Microsoft activation service on the internet. This is only supported for Windows 7 and later operating systems when using volume license media.

MAK Product Key:

☐ Specify the product key for this operating system.

Specify a retail product key. (Note that retail keys can only be used to activate a single machine.)

Product Key:

Donner un nom d'affichage

Specify settings about this task sequence. These settings will be used for all deployments of this task sequence, unless overridden during the deployment process using the wizard or a rule.

Full Name:

LeNuageux

Organization:

Nuageux SARL

Internet Explorer Home Page:

about:blank

Si besoin ajouter un mot de passe d'administrateur local

Specify the local Administrator password for this task sequence.

☒ Use the specified local Administrator password.

Administrator Password:

●●●●●●●●

Please confirm Administrator Password:

●●●●●●●●

☐ Do not specify an Administrator password at this time.

The local Administrator password will be provided during the deployment of this task sequence, so it is not needed as part of the task sequence definition.

Valider les choix effectué, la séquence de tâche est créée !
